Good Morning:

Good news from HQ. I assume we can now move forward with the additional funding needed for both GES & Weston? Last I heard, the paperwork for ERRS Task Order increase was ready to go anticipating the signed document.

Joe, during your visit you mentioned you may be able to obtain more than \$750K for this fiscal year. I am not sure if that has occurred or not. Attached is the monthly financial estimate for ERRS that was sent to management on 09/18/2016. We currently have approximately \$390K ceiling for ERRS. \$580,250 will be going towards the initial base period payment to the T&D subcontractor (the award has been approved by John Bachman and just waiting for the funding). I am not sure if we are to obligate any of this new money to Weston. We really need every penny for ERRS.

Thanks
